

ELECTION

Claims 123 and 131 have been amended. No new material has been introduced.

Applicant elects Group I, claims 123 - 141, drawn to a composition of matter comprising a crystallized glucocerebrosidase, a method of crystallizing a glucocerebrosidase molecule, a glucocerebrosidase preparation, a pharmaceutical composition, and an article of manufacture.

Applicant further elects;

a), the glucocerebrosidase of Table 4 and SEQ ID NO: 1 as the single glucoerebrosidase; and

m), glycosylation residue 1, Asn 19 as the single glycoylation residue.

where the compositions, methods, preparations, pharmaceutical compositions and articles of manufacture of elected claims of Group I will be found novel and non-obvious, Applicants reserve the right to request rejoinder of non-elected claims drawn on compositions, methods, preparations, pharmaceutical compositions and articles of manufacture depending from or otherwise including all the limitations of the allowed composition claims.

Applicant reserves the right to file, at a later date, additional divisional applications claiming priority from the present application which are directed to the non-elected Inventions.

Respectfully submitted,

Martin D. Moynihan
